PERSONAL PROFILE

I recently graduated and qualified Computer Engineer. I am enthusiastic about developing a career in Computer Engineering. My ability to stay focussed under pressure allows me to perform efficiently and with precision in high demand situations. I possess excellent analytical and problem-solving skills with the ability to make independent judgements. I strive to be empathetic, respectful and cooperative in all interactions. I am highly numerate and with a solid mathematical scientific background. With a strong commitment to my personal development and achievement, I endeavour to be resourceful and creative in all my endeavours, bringing a fresh perspective to situations while upholding core company values.

-

Web Developer

- Dynamic Web development
- Website management
- Web Programming
- Software development
- Database design and management
- Front End Web Development HTML
- Cascading Style Sheet CSS
- ASP.Net
- Model View Control MVC
- Working in a dynamic environment with many conflicting demands building on my ability to effectively manage a range of priorities.
- Back End Web Development PHP

- Oracle RDBMS (Relational Database Management Systems)
- Database Management Systems (Database Administration)
- Manage account payments.
- Information Security and Data Privacy
- Support IT approved software for desktop and laptop computers.

- Configure machines, software, printers and network access.

- Primarily worked alongside a Senior Mentor, which required maintaining effective communication, ability to learn quickly in order to adapt to an initially unfamiliar environment and enhanced my ability to question and analyse critically.

EDUCATION

School/University	Qualifications obtained
European University of Lefke	**BSc in Computer Engineering**
2016 – 2021	Bachelor of Computer Sciences in Software Engineering (BSc)

KEY SKILLS AND COMPETENCES

Technical	Personal
Troubleshooting applications, hardware and software,	Accuracy, precision, and attention to detail
Network security,	Ability to work unsupervised
